PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building high-performance, scalable web applications using React.js, Tailwind CSS, and JavaScript (ES6+), with working exposure to Next.js and TypeScript. Track record of improving Lighthouse performance scores from 60 to 90+, reducing load times by 20% through code-splitting, and boosting user engagement by 25% via responsive, accessibility-driven redesigns. Skilled at translating Figma designs into pixel-perfect, production-ready UI components for e-commerce and SaaS platforms.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript (working knowledge), HTML5, CSS3, PHP, SQL (Basic)

Frameworks & Libraries: React.js, Next.js (working knowledge), Redux, React Router, Tailwind CSS, Bootstrap

Tools & Platforms: Git, GitHub, VS Code, Figma, Webpack, Vite, Chrome DevTools

APIs & Integrations: RESTful APIs, Stripe Payment Gateway, JWT Authentication

Core Competencies: Responsive Web Design, Cross-Browser Compatibility, Web Accessibility (WCAG), State Management, Performance Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

Front-End Developer (Associate Software Engineer) — Nipunar Consultancy Services *Sept 2023 – Present*

- Developed and optimized React-based interfaces for e-commerce and dashboard applications, improving overall UI responsiveness and maintainability.
- Implemented code-splitting and lazy loading, reducing initial page load time by 20%.
- Integrated Stripe API for secure payment processing and JWT-based authentication.
- Translated Figma designs into production-ready components using Tailwind CSS, ensuring pixel-perfect UI delivery.
- Improved Lighthouse performance scores from 60 to 90+ across multiple projects through code-splitting, lazy loading, and asset optimization.
- Increased user engagement by 25% through a responsive redesign initiative.
- Reduced page bounce rate by implementing WCAG accessibility improvements across key user flows.

Junior Front-End Developer — Nipunar Consultancy Services *Jul 2022 – Aug 2023*

- Delivered 10+ static and dynamic websites for clients across the finance and education domains.
- Collaborated with cross-functional teams to ensure brand consistency and pixel-perfect UI across projects.
- Migrated and modernized legacy JavaScript codebases into React.js, improving maintainability and performance.
- Built reusable UI component kits, reducing development time by 30% per sprint.
- Contributed to a 15% improvement in client satisfaction scores through targeted UI revamps.

KEY PROJECTS

E-Commerce Admin Dashboard *(React.js, Tailwind CSS, Chart.js)*

- Built an admin dashboard enabling business users to track sales, revenue, and user analytics through interactive Chart.js visualizations, replacing manual spreadsheet reporting.
- Structured reusable chart and card components to keep the dashboard performant and easy to extend with new metrics.

Personal Portfolio Website *(React.js, Vercel)*

- Designed and deployed a fully responsive personal website to showcase projects and technical skills, optimized for fast load times and mobile-first viewing.
- Implemented clean component architecture and deployed a CI-friendly workflow on Vercel for quick iteration.

EDUCATION

Bachelor in Computer Application (BCA) — RKDF University, Ranchi | *2019 – 2022*

CERTIFICATIONS

- The Complete Web Developer Bootcamp — Udemy (2023)
- Frontend Web Development — Great Learning (2022)
